ATS Notes

POST /auth/signup

```
Body: {"username":"string","email":"string","password":"string"}
Access: public
Behavior: creates the account, assigns ROLE_USER, sends verification code
Response: 200 OK with the saved User entity
```

POST /auth/login

```
Body: {"email":"string","password":"string"}
Access: public
Response: 200 OK
Response body: {"token":"jwt","expiresIn":number}
```

POST /auth/verify

```
Body: {"email":"string","verificationCode":"string"}
Access: public
Response: 200 OK with "Account verified successfully"
```

POST /auth/resend?email=user@example.com

```
Access: public
Response: 200 OK with "Verification code sent"
```

POST /auth/resend-body

```
Body: {"email":"string"}
Access: public
Response: 200 OK with "Verification code sent"
```

POST /admin-requests

```
Access: authenticated user
Headers: Authorization: Bearer <jwt>
Body: none
Response: 201 Created
Response body:
```

> Error cases: 409 Conflict if the user already has admin access or already has a pending request

GET /admin-requests/me

```
Access: authenticated user
Headers: Authorization: Bearer <jwt>
Response: 200 OK with a list of that user's admin requests
```

GET /admin-requests/pending

```
Access: admin only
Headers: Authorization: Bearer <jwt>
Response: 200 OK with all pending requests
```

PATCH /admin-requests/{requestId}

```
Access: admin only
Headers: Authorization: Bearer <jwt>
Body:
{
  "status": "APPROVED"
}
```

```
Access: admin only
Headers: Authorization: Bearer <jwt>
Body:
{
  "status": "REJECTED"
}
```

```
Response: 200 OK with the updated request
Error cases: 400 Bad Request for PENDING, 404 Not Found if the request does not
exist, 409 Conflict if it was already processed
```

Create Facility
Method/Path: POST /admin/facilities/add

```
Handler: AdminActionsController.java:38
Request body (application/json):
Validation:
name required (NotBlank) in FacilityRequestDto.java:10
location required (NotBlank) in FacilityRequestDto.java:13
Success response: 200 OK
Body: saved Facility entity (includes id, name, location, and mapped fields)
Error responses: 400 Bad Request for validation errors via
GlobalExceptionsHandler.java:14
```

Add User to Facility
Method/Path: POST /admin/facilities/{facilityId}/addUser

```
Handler: AdminActionsController.java:50
Path param:
facilityId (Long)
Request body (application/json):
Validation:
email required (NotBlank) in EmailRequestDto.java:10
Success response: 200 OK
{
    "message": "User already has access to this facility"
}
Error responses: 400 Bad Request if facility/user missing or already linked
(IllegalArgumentException handled in GlobalExceptionsHandler.java:111) 400 Bad
Request for validation errors
```

---

1. Add Email Recipient to Facility

```
POST /facilities/{facilityId}/email-recipients
Access: Admin OR User with access to that facility (based on user_facility)
Headers: Authorization: Bearer <jwt>
Path param: facilityId (Long)
Request body:
{
  "email": "string",
  "name": "string (optional)",
  "isActive": true (default)
}
Success response: 200 OK
Body: EmailRecipient entity (includes id, email, name, isActive, facilityId)
Error responses:
- 403 Forbidden if user doesn't have access to this facility
- 400 Bad Request if email already exists for this facility
- 404 Not Found if facility doesn't exist
```

2. Get All Email Recipients for a Facility

```
GET /facilities/{facilityId}/email-recipients
Access: Admin OR User with access to that facility
Headers: Authorization: Bearer <jwt>
Path param: facilityId (Long)
Query params:
- isActive: boolean (optional, filter by active status)
Success response: 200 OK
Body: List of EmailRecipient entities
```

3. Update Email Recipient

```
PATCH /facilities/{facilityId}/email-recipients/{recipientId}
Access: Admin OR User with access to that facility
Headers: Authorization: Bearer <jwt>
Path params: facilityId (Long), recipientId (Long)
Request body:
{
  "email": "string (optional)",
  "name": "string (optional)",
  "isActive": "boolean (optional)"
}
Success response: 200 OK
Body: Updated EmailRecipient entity
Error responses:
- 403 Forbidden if user doesn't have access
- 404 Not Found if recipient doesn't exist
```

4. Delete Email Recipient

```
DELETE /facilities/{facilityId}/email-recipients/{recipientId}
Access: Admin OR User with access to that facility
Headers: Authorization: Bearer <jwt>
Path params: facilityId (Long), recipientId (Long)
Success response: 200 OK
Body: "Email recipient removed successfully"
Error responses:
- 403 Forbidden if user doesn't have access
- 404 Not Found if recipient doesn't exist
```

5. Batch Add Email Recipients (Admin only)

```
POST /admin/facilities/{facilityId}/email-recipients/batch
Access: Admin only
Headers: Authorization: Bearer <jwt>
Path param: facilityId (Long)
Request body:
{
  "recipients": [
    {"email": "user1@example.com", "name": "User One"},
    {"email": "user2@example.com", "name": "User Two"}
  ]
}
Success response: 200 OK
Body: List of created EmailRecipient entities
```

APPLICANT MANAGEMENT APIs

POST /applicants

Access: Admin OR User with facility access

Headers:

```
Authorization: Bearer <your_jwt_token>
Content-Type: multipart/form-data
```

Body (form-data):

Key	Value	Type
name	John Smith	Text
email	john.smith@email.com	Text
phoneNumber	+1234567890	Text (optional)
role	Registered Nurse	Text
facilityId	1	Text
status	INVITING_FOR_INTERVIEW	Text (optional)
notes	Has 5 years experience	Text (optional)
resume	resume.pdf	File (required)

Response (201 Created):

```
{
    "id": 1,
    "name": "John Smith",
    "email": "john.smith@email.com",
    "phoneNumber": "+1234567890",
    "role": "Registered Nurse",
    "facilityId": 1,
    "facilityName": "Downtown Medical Center",
    "status": "INVITING_FOR_INTERVIEW",
    "resumeUrl": "/uploads/resumes/1/resume.pdf",
    "addedDate": "2024-01-15T10:00:00",
    "addedBy": 1,
    "addedByName": "admin",
    "notes": "Has 5 years experience",
    "interviews": [],
    "orientation": null
}
```

GET /applicants

Access: Admin OR User with facility access

Headers:

```
Authorization: Bearer <your_jwt_token>
```

Query Parameters:

- `facilityId` - Required for non-admin users
- `status` - Optional (SCHEDULED, INVITING_FOR_INTERVIEW, HIRED, etc.)
- `role` - Optional
- `fromDate` - Optional (yyyy-MM-dd)
- `toDate` - Optional (yyyy-MM-dd)
- `page` - 0 (default)
- `size` - 20 (default)
- `sort` - addedDate,desc (default)

URL Examples:

```
GET /applicants?facilityId=1
GET /applicants?facilityId=1&status=HIRED
GET /applicants?facilityId=1&role=Nurse&page=0&size=10
GET /applicants?facilityId=1&fromDate=2024-01-01&toDate=2024-01-31
```

Response (200 OK):

```
{
    "content": [
        {
            "id": 1,
            "name": "John Smith",
            "email": "john.smith@email.com",
            "phoneNumber": "+1234567890",
            "role": "Registered Nurse",
            "facilityId": 1,
            "facilityName": "Downtown Medical Center",
            "status": "INVITING_FOR_INTERVIEW",
            "addedDate": "2024-01-15T10:00:00"
        }
    ],
    "totalElements": 1,
    "totalPages": 1,
    "size": 20,
    "number": 0
}
```

GET /applicants/{applicantId}

Access: Admin OR User with facility access

Headers:

```
Authorization: Bearer <your_jwt_token>
```

URL Example: `/applicants/1`

Response (200 OK):

```
{
    "id": 1,
    "name": "John Smith",
    "email": "john.smith@email.com",
    "phoneNumber": "+1234567890",
    "role": "Registered Nurse",
    "facilityId": 1,
    "facilityName": "Downtown Medical Center",
    "status": "SCHEDULED",
    "resumeUrl": "/uploads/resumes/1/resume.pdf",
    "addedDate": "2024-01-15T10:00:00",
    "addedBy": 1,
    "addedByName": "admin",
    "notes": "Has 5 years experience",
    "interviews": [
        {
            "id": 1,
            "scheduledDate": "2024-01-20T14:00:00",
            "durationMinutes": 60,
            "interviewType": "video",
            "meetingLink": "https://zoom.us/j/123456789",
            "completed": false,
            "noShow": false
        }
    ],
    "orientation": null
}
```

PATCH /applicants/{applicantId}/status

Access: Admin OR User with facility access

Headers:

```
Authorization: Bearer <your_jwt_token>
Content-Type: application/json
```

URL Example: `/applicants/1/status`

Body (raw JSON):

```
{
    "status": "HIRED",
    "notes": "Accepted the offer"
}
```

Response (200 OK): Updated applicant object

Valid Status Values:

- SCHEDULED
- INVITING_FOR_INTERVIEW
- NOT_QUALIFIED
- NOT_ELIGIBLE_FOR_HIRE
- NOT_INTERESTED
- INTERVIEW_COMPLETED
- INTERVIEW_NO_SHOW
- HIRED
- ORIENTATION_SCHEDULED
- ORIENTATION_NO_SHOW
- ORIENTATION_COMPLETED

PUT /applicants/{applicantId}

Access: Admin OR User with facility access

Headers:

```
Authorization: Bearer <your_jwt_token>
Content-Type: multipart/form-data
```

URL Example: `/applicants/1`

Body (form-data - all fields optional):

Key	Value	Type
name	John A. Smith	Text
email	john.new@email.com	Text
phoneNumber	+1987654321	Text
role	Senior Nurse	Text
notes	Updated notes	Text
resume	new_resume.pdf	File (optional)

Response (200 OK): Updated applicant object

GET /applicants/{applicantId}/resume

Access: Admin OR User with facility access

Headers:

```
Authorization: Bearer <your_jwt_token>
```

URL Example: `/applicants/1/resume`

Response (200 OK): Binary file (PDF/DOC/DOCX)

POST /applicants/{applicantId}/interviews

Access: Admin OR User with facility access

Headers:

```
Authorization: Bearer <your_jwt_token>
Content-Type: application/json
```

URL Example: `/applicants/1/interviews`

Body (raw JSON):

```
{
    "scheduledDate": "2024-01-25T14:30:00",
    "durationMinutes": 60,
    "interviewType": "video",
    "notes": "Please prepare portfolio",
    "generateMeetingLink": true,
    "sendCalendarInvites": true,
    "sendEmailNotifications": true
}
```

Response (201 Created):

```
{
    "id": 1,
    "applicantId": 1,
    "scheduledDate": "2024-01-25T14:30:00",
    "scheduledEndDate": "2024-01-25T15:30:00",
    "durationMinutes": 60,
    "interviewType": "video",
    "meetingLink": "https://zoom.us/j/123456789",
    "meetingPassword": "123456",
    "calendarEventId": "abc123",
```

```
    "notes": "Please prepare portfolio",
    "completed": false,
    "noShow": false,
    "emailSent": true,
    "remindersScheduled": true
}
```

PATCH /applicants/{applicantId}/interviews/{interviewId}/complete

Access: Admin OR User with facility access

Headers:

```
Authorization: Bearer <your_jwt_token>
Content-Type: application/json
```

URL Example: `/applicants/1/interviews/1/complete`

Body (raw JSON):

```
{
    "completed": true,
    "noShow": false,
    "notes": "Interview went well, good communication skills",
    "newStatus": "INTERVIEW_COMPLETED"
}
```

Response (200 OK):

```
{
    "id": 1,
    "completed": true,
    "noShow": false,
    "notes": "Interview went well, good communication skills",
    "completedAt": "2024-01-25T15:45:00",
    "applicantStatus": "INTERVIEW_COMPLETED"
}
```

POST /applicants/{applicantId}/orientation

Access: Admin OR User with facility access

Headers:

```
Authorization: Bearer <your_jwt_token>
```

```
Content-Type: application/json
```

URL Example: `/applicants/1/orientation`

Body (raw JSON):

```
{
    "scheduledDate": "2024-02-01T09:00:00",
    "durationMinutes": 120,
    "documentsRequired": ["ID", "Certifications", "Bank Details"],
    "generateMeetingLink": true,
    "sendEmailNotifications": true
}
```

Response (201 Created):

```
{
    "id": 1,
    "applicantId": 1,
    "scheduledDate": "2024-02-01T09:00:00",
    "scheduledEndDate": "2024-02-01T11:00:00",
    "durationMinutes": 120,
    "meetingLink": "https://zoom.us/j/987654321",
    "calendarEventId": "xyz789",
    "documentsRequired": ["ID", "Certifications", "Bank Details"],
    "completed": false,
    "noShow": false
}
```

PATCH /applicants/{applicantId}/orientation/{orientationId}/complete

Access: Admin OR User with facility access

Headers:

```
Authorization: Bearer <your_jwt_token>
Content-Type: application/json
```

URL Example: `/applicants/1/orientation/1/complete`

Body (raw JSON):

```
{
    "completed": true,
    "noShow": false,
    "notes": "Completed all orientation modules"
}
```

Response (200 OK):

```
{
    "id": 1,
    "completed": true,
    "completedAt": "2024-02-01T11:30:00",
    "applicantStatus": "HIRED"
}
```

PATCH /applicants/bulk/status

Access: Admin only

Headers:

```
Authorization: Bearer <admin_jwt_token>
Content-Type: application/json
```

Body (raw JSON):

```
{
    "applicantIds": [1, 2, 3],
    "status": "NOT_QUALIFIED",
    "notes": "Missing required certifications"
}
```

Response (200 OK):

```
{
    "updatedCount": 2,
    "failedIds": [3],
    "message": "2 applicants updated, 1 failed"
}
```

GET /applicants/stats

Access: Admin OR User with facility access

Headers:

```
Authorization: Bearer <your_jwt_token>
```

Query Parameters:

- `facilityId` - Required for non-admin users

- `fromDate` - Optional (yyyy-MM-dd)
- `toDate` - Optional (yyyy-MM-dd)

URL Examples:

```
GET /applicants/stats?facilityId=1
GET /applicants/stats?facilityId=1&fromDate=2024-01-01&toDate=2024-01-31
```

Response (200 OK):

```
{
    "totalApplicants": 150,
    "byStatus": {
        "SCHEDULED": 25,
        "INTERVIEW_COMPLETED": 30,
        "HIRED": 10,
        "NOT_QUALIFIED": 45,
        "INVITING_FOR_INTERVIEW": 40
    },
    "byRole": {
        "Registered Nurse": 60,
        "Doctor": 40,
        "Technician": 50
    },
    "byFacility": [
        {
            "facilityId": 1,
            "facilityName": "Downtown Medical Center",
            "count": 150
        }
    ],
    "conversionRate": 6.67,
    "averageTimeToHire": 15.5
}
```

GET /applicants/search

Access: Admin OR User with facility access

Headers:

```
Authorization: Bearer <your_jwt_token>
```

Query Parameters:

- `q` - Required (search in name, email, phone, role)
- `facilityId` - Required for non-admin users
- `status` - Optional

- `limit` - 20 (default, max 100)

URL Examples:

```
GET /applicants/search?q=John&facilityId=1
GET /applicants/search?q=Nurse&facilityId=1&status=HIRED&limit=50
```

Response (200 OK):

```
[
    {
        "id": 1,
        "name": "John Smith",
        "email": "john.smith@email.com",
        "phoneNumber": "+1234567890",
        "role": "Registered Nurse",
        "status": "HIRED",
        "facilityName": "Downtown Medical Center",
        "addedDate": "2024-01-15T10:00:00"
    },
    {
        "id": 5,
        "name": "John Doe",
        "email": "john.doe@email.com",
        "phoneNumber": "+1987654321",
        "role": "Nurse Practitioner",
        "status": "INTERVIEW_COMPLETED",
        "facilityName": "Downtown Medical Center",
        "addedDate": "2024-01-16T14:30:00"
    }
]
```

POST /applicants/{applicantId}/resend-notification

Access: Admin OR User with facility access

Headers:

```
Authorization: Bearer <your_jwt_token>
Content-Type: application/json
```

URL Example: `/applicants/1/resend-notification`

Body (raw JSON):

```
{
    "notificationType": "INTERVIEW_SCHEDULED"
}
```

Valid notificationType values:

- INTERVIEW_SCHEDULED
- ORIENTATION_SCHEDULED
- HIRED
- STATUS_UPDATE

Response (200 OK):

```
{
    "message": "Notification resent successfully",
    "emailSent": true,
    "calendarInviteSent": true
}
```

STATUS TRANSITION RULES

Valid status changes:

From Status	Allowed To Status
INVITING_FOR_INTERVIEW	SCHEDULED, NOT_QUALIFIED, NOT_ELIGIBLE_FOR_HIRE, NOT_INTERESTED
SCHEDULED	INTERVIEW_COMPLETED, INTERVIEW_NO_SHOW, NOT_QUALIFIED, NOT_INTERESTED
INTERVIEW_COMPLETED	HIRED, NOT_QUALIFIED, NOT_ELIGIBLE_FOR_HIRE, NOT_INTERESTED, ORIENTATION_SCHEDULED
INTERVIEW_NO_SHOW	SCHEDULED, NOT_INTERESTED

GET /calendar/interviews/upcoming

Access: Admin OR User with facility access

Headers:

```
Authorization: Bearer <your_jwt_token>
```

Query Parameters:

- `facilityId` - Required for non-admin users
- `days` - Optional (number of days to look ahead, default: 7)
- `limit` - Optional (max results, default: 50)

URL Examples:

```
GET /calendar/interviews/upcoming?facilityId=1
GET /calendar/interviews/upcoming?facilityId=1&days=14&limit=20
```

Response (200 OK):

```

    }
}
```

GET /calendar/export

Access: Admin OR User with facility access

Headers:

```
Authorization: Bearer <your_jwt_token>
```

Query Parameters:

- `facilityId` - Required for non-admin users
- `startDate` - Required (yyyy-MM-dd)
- `endDate` - Required (yyyy-MM-dd)
- `format` - Optional (ics, csv, json, default: ics)

URL Examples:

```
GET /calendar/export?facilityId=1&startDate=2024-01-01&endDate=2024-01-31&format=ics
GET /calendar/export?facilityId=1&startDate=2024-01-01&endDate=2024-01-31&format=csv
```

Response (200 OK):

For format=ics:

```
Content-Type: text/calendar
Content-Disposition: attachment; filename="interviews_2024-01.ics"

        "2024-01-21T14:00:00"
    ]
}
```

Database Schema Addition

```
-- Add calendar sync tokens table (optional, for external calendar sync)
CREATE TABLE calendar_sync (
    id BIGINT PRIMARY KEY AUTO_INCREMENT,
    facility_id BIGINT NOT NULL,
    calendar_type VARCHAR(50) NOT NULL, -- google, outlook, ical
    external_calendar_id VARCHAR(500),
    sync_token VARCHAR(500),
    access_token TEXT,
    refresh_token TEXT,
    token_expiry TIMESTAMP,
    last_sync_at TIMESTAMP,
    is_active BOOLEAN DEFAULT TRUE,
    created_at TIMESTAMP DEFAULT CURRENT_TIMESTAMP,
    updated_at TIMESTAMP DEFAULT CURRENT_TIMESTAMP ON UPDATE CURRENT_TIMESTAMP,
    FOREIGN KEY (facility_id) REFERENCES facility(id),
    UNIQUE KEY uk_facility_calendar_type (facility_id, calendar_type)
);
```

Calendar View Types

The API supports different calendar views for the frontend:

Month View

```
GET /calendar/interviews?facilityId=1&startDate=2024-01-01&endDate=2024-01-31&view=month
```

Returns events grouped by date for month grid display.

Week View

```
GET /calendar/interviews?facilityId=1&startDate=2024-01-15&endDate=2024-01-21&view=week
```

Returns events by day of week with time slots.

Day View

```
GET /calendar/interviews?facilityId=1&startDate=2024-01-15&endDate=2024-01-15&view=day
```

Returns detailed timeline of events for a single day with 30-minute slots.

Agenda View

```
GET /calendar/interviews?facilityId=1&startDate=2024-01-01&endDate=2024-01-31&view=agenda
```

Returns chronological list of all events.

Response Examples for Different Views

Month View Response:

```
{
    "view": "month",
    "eventsByDate": {
        "2024-01-15": [
            {
                "id": 1,
                "title": "John Smith - RN",
                "time": "14:00",
                "status": "SCHEDULED"
            }
        ],
        "2024-01-20": [
            {
                "id": 2,
                "title": "Jane Doe - Doctor",
                "time": "10:00",
                "status": "SCHEDULED"
            }
        ]
    }
}
```

Week View Response:

```
{
    "view": "week",
    "weekDays": [
        {
            "date": "2024-01-15",
            "dayName": "Monday",
            "events": [
                {
                    "id": 1,
                    "title": "John Smith - Registered Nurse",
                    "startTime": "14:00",
                    "endTime": "15:00",
                    "type": "video"
                }
            ]
        },
        {
            "date": "2024-01-16",
            "dayName": "Tuesday",
            "events": []
        }
    ]
}
```

Day View Response:

```
{
    "view": "day",
    "date": "2024-01-15",
    "timeSlots": [
        {
            "time": "09:00",
            "events": []
        },
        {
            "time": "14:00",
            "events": [
                {
                    "id": 1,
                    "title": "John Smith - Registered Nurse",
                    "duration": 60,
                    "meetingLink": "https://zoom.us/j/123456789"
                }
            ]
        }
    ]
}
```

Postman Testing Examples

1. Get Month View Calendar

```
GET http://localhost:8080/calendar/interviews?facilityId=1&startDate=2024-01-
01&endDate=2024-01-31&view=month
Headers:
  Authorization: Bearer <token>
```

2. Get Upcoming Interviews

```
GET http://localhost:8080/calendar/interviews/upcoming?facilityId=1&days=7
Headers:
  Authorization: Bearer <token>
```

3. Export Calendar to iCal

```
GET http://localhost:8080/calendar/export?facilityId=1&startDate=2024-01-
01&endDate=2024-01-31&format=ics
Headers:
  Authorization: Bearer <token>
```

4. Check Time Availability Before Scheduling

```
POST http://localhost:8080/calendar/availability/check
Headers:
  Authorization: Bearer <token>
  Content-Type: application/json

Body:
{
    "facilityId": 1,
    "startDateTime": "2024-01-20T14:00:00",
    "endDateTime": "2024-01-20T15:00:00"
}
```

5. Regenerate Meeting Link

```
POST http://localhost:8080/calendar/meeting-link/1/regenerate
Headers:
  Authorization: Bearer <token>
  Content-Type: application/json

Body:
{
```

```
    "sendUpdateNotifications": true
}
```
